INSTALLATION GUIDE

Cautions and Warnings

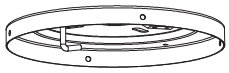

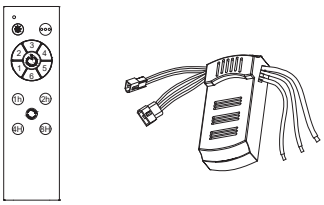

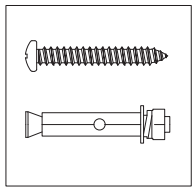

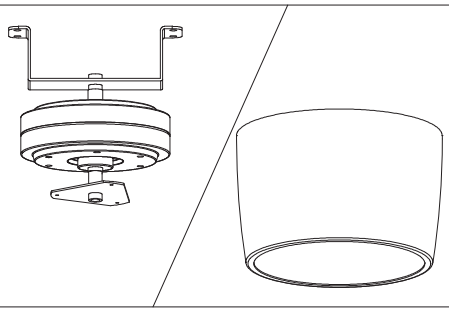

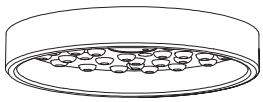

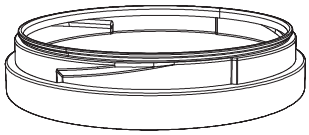

• READ THIS ENTIRE MANUAL CAREFULLY BEFORE BEGINNING INSTALLATION. SAVE THESE INSTRUCTIONS.
• Use only Wahson replacement parts.
• To reduce the risk of personal injury, attach the fan directly to the support structure of the building according to these instructions, and use only the hardware supplied.
• To avoid possible electrical shock, before installing your fan, disconnect the power by turning off the circuit breakers to the outlet box and associated wall switch location. If you cannot lock the circuit breakers in the off position, securely fasten a prominent warning device, such as a tag, to the service panel.
• All wiring must be in accordance with national and local electrical codes and ANSI/NFPA 70. If you are unfamiliar with wiring, use a qualified electrician.
• To reduce the risk of personal injury, do not bend the blade attachment system when installing, balancing, or cleaning the fan. Never insert foreign objects between rotating fan blades.
• To reduce the risk of fire, electrical shock, or motor damage, do not use a solid-state speed control with this fan. Use only RUIXUAN speed controls

NOTE: The important safety precautions and instructions appearing in the manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense and caution are necessary factors in the installation and operation of this fan.

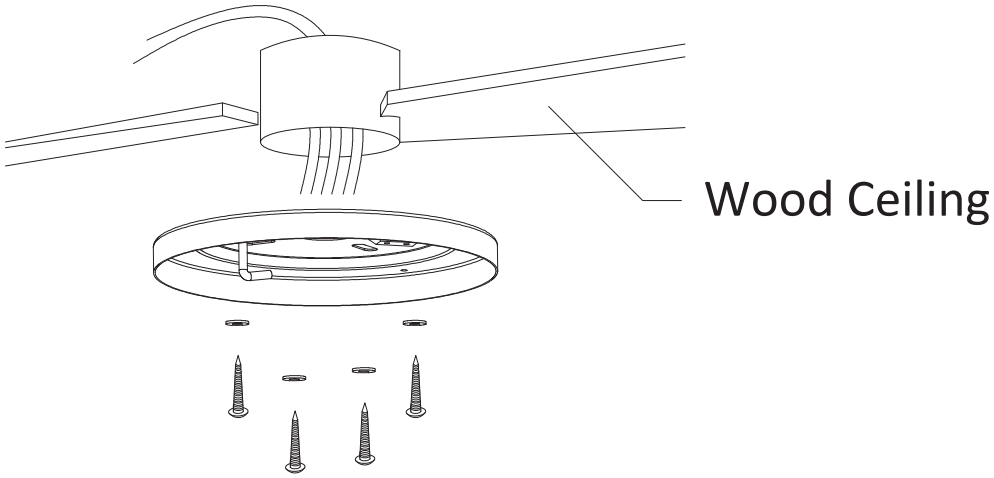

Parts Inventory

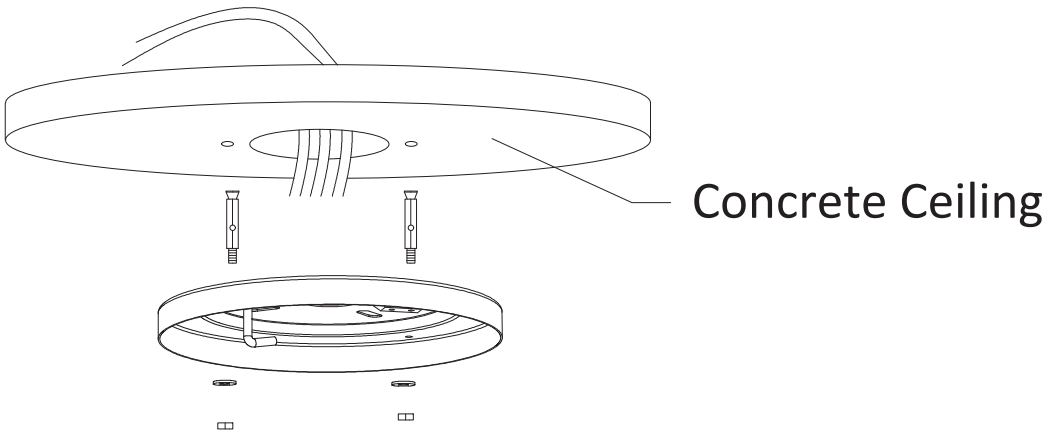

Carefully open the packaging. Remove items from Styrofoam inserts. Remove motor housing and place on carpet or Styrofoam to avoid damage to finish. Check against parts inventory that all parts have been included.

- Downrod and hanging ball

		
Hanger bracket	Remote control	Spiral package
		
Blade	Motor	LED light source
		
shade		

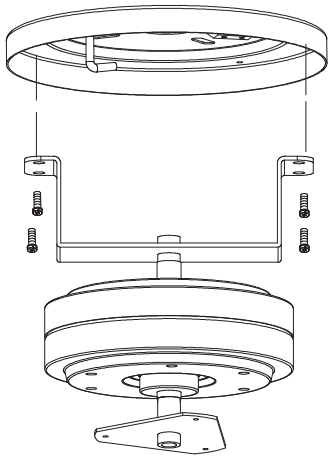

Installing the Hanger Bracket

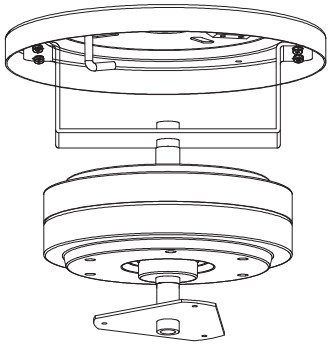

Please drill ϕ8mm hole on the concrete ceiling, and insert the bolt.
Align bracket with the hole, then tighten with nut.

Remote control connection

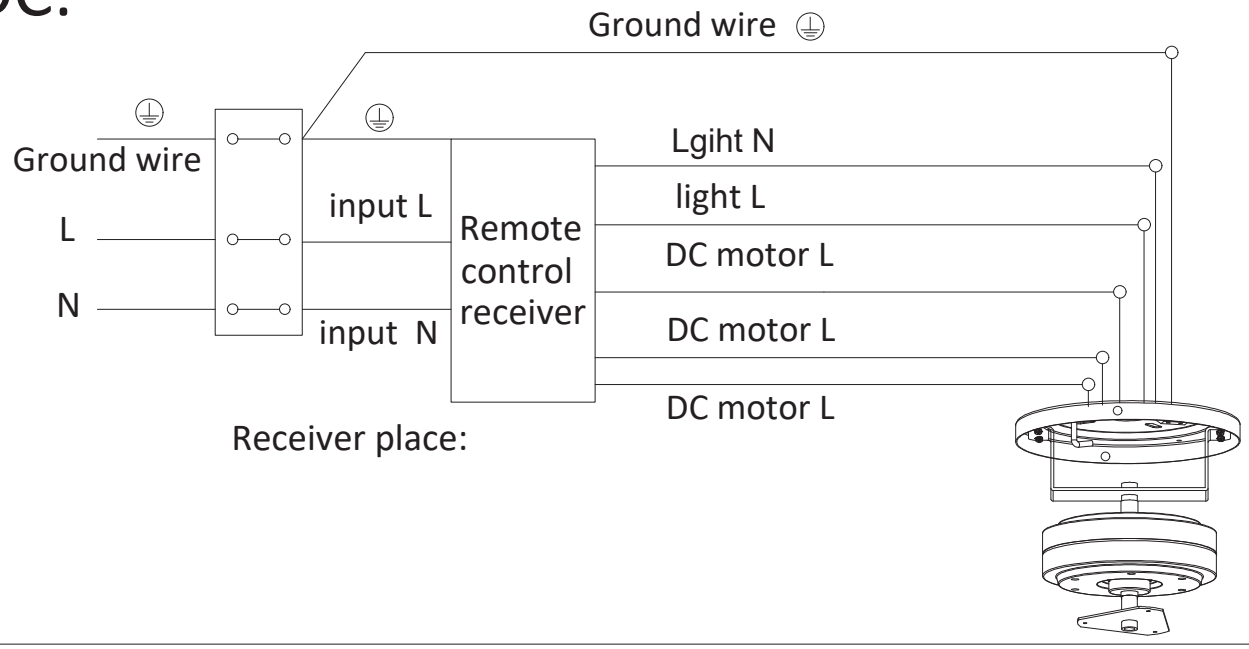

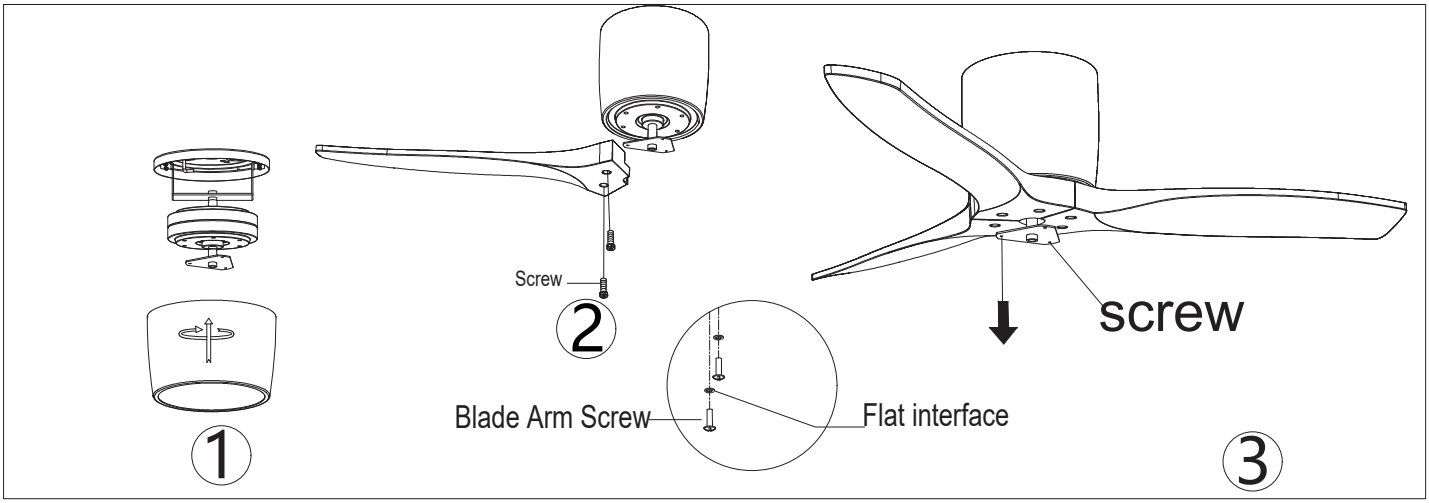

Align the bracket with the hanging plate screw hole, and tighten all screws after connection. Repeat for the remaining blade arms before permanently fixing the screws.
Note: tighten the blade screw twice.

Remote control connection

DC:

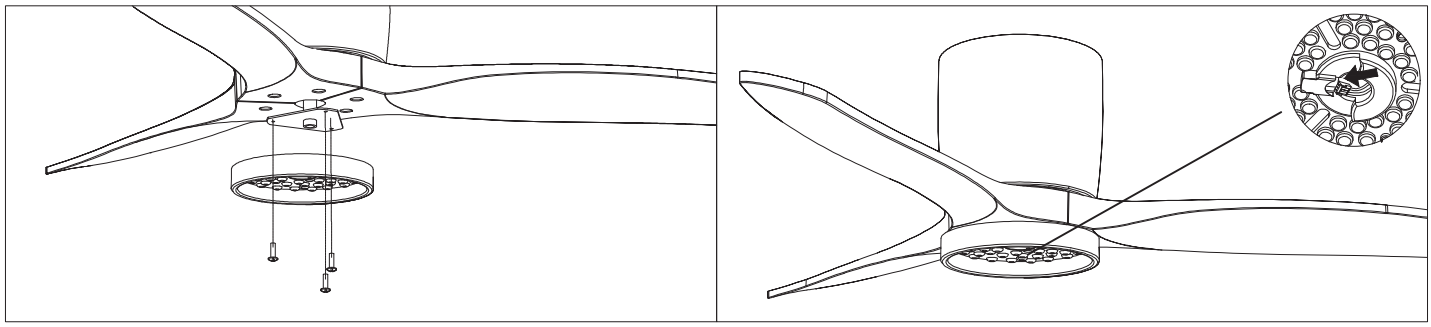

Blade Assembly

Connect electrical wires accurately according to the diagram
Make sure the key slot on the fan body cover is in the same line with the key slot on the fan body, then rotate the fan body cover
Lock the leaves on the circular piece first, do not lock them tight at a time, Please only lock all baldes tight untill all three blades have locked. Then lock tight the installed blades on the motor.

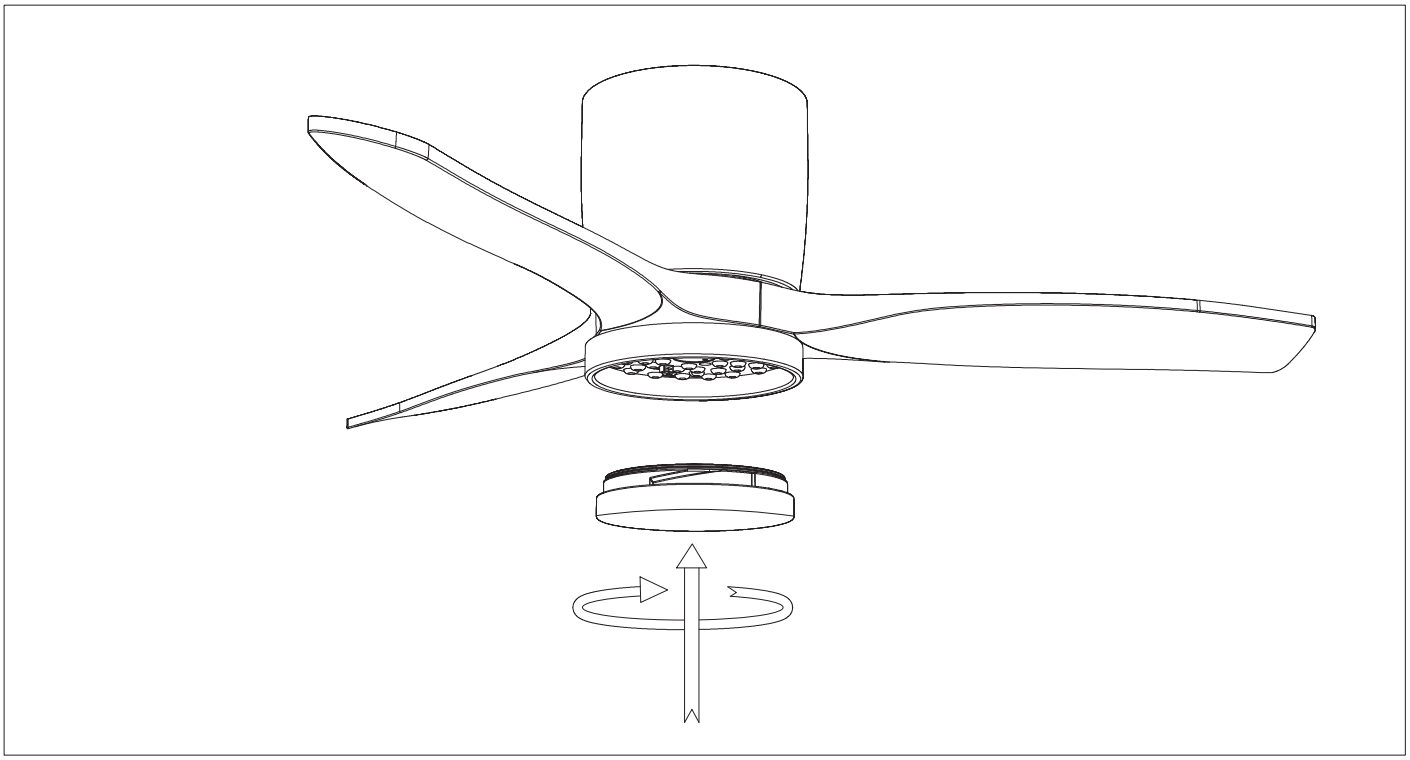

LED Pan Assembly

Unscrew a set screw. Attach the LED pan up to the bottom of the fan by inserting the other two set screw heads into key hole slots, rotate it to place, then secure the previous set screw by aligning screw hole and the hole at the bottom of the fan, tighten the rest two set screw to secure LED pan.

NOTE: While install or remove the LED pan, please keep the insulation pads intact carefully. Turning the set screws over-tightly or fast will damage the insulation pads.

Decorative Pan Inventory

Restore the cover and the lamp shade back to the LED pan, and secure them with decorative clips and bolt nuts.
